

# Education Champions Workshop

Thursday 26 July 2018  
9:30am – 3pm  
UTS Proto Space Ultimo

**UTS** and the **Why Not You Project** have teamed up with ACWA to provide a University Experience Day including an excellent Code and Design 3D Modelling Workshop for young people in care from Years 9 to 12.

There is a strong evidence to show that education can be a crucial key to future success. One of the biggest challenges for young people in care is just staying at school through to Year 12.

As part of the University Experience Day there will also be a specific workshop for Carers and Caseworkers to share information about university entry and other supports. We will also look at the UK Education Champions program which engages Carers with education backgrounds and/or advocacy skills to provide peer support to other Carers to help them support their young person's educational journey.

Following lunch we will hold a meeting of ACWA's Education Action Committee which all carers and caseworkers are also welcome to attend.

**REGISTRATION FORM**

**Important:**

Please complete a separate form for each person attending.
