FROM FOSTERING AND RESIDENTIAL CARE

## PROFESSIONAL DEVELOPMENT WORKSHOP

### TRANSITIONING FROM OUT-OF-HOME CARE FOR PRACTITIONERS: APPLYING INTERNATIONAL EVIDENCE

Sydney: Monday, 4 November 2019 Melbourne: Wednesday, 6 November 2019
Cost: A$295 p/p

### WORKSHOP DESCRIPTION

This workshop is specifically designed for practitioners working with young people who are, or will be, transitioning from care including social workers, personal advisors and residential workers.

The one-day participatory training workshop covers transition preparation, extended care, relationship-based support, and accommodation. The latest international evidence is distilled down to a selection of the most relevant and actionable practitioner tools, frameworks and practices available. Engaging in assessing, selecting, and planning their use, participants will also discuss the evidence base, challenge ideas, and reflect upon how these tools, frameworks and practices can be applied to their own particular role and organisational structures, allowing participants to confidently plan positive changes in their own and their team's professional practice to achieve better outcomes.

### WORKSHOP LEADER

Dr. Iain Matheson is a leading New Zealand-based researcher and consultant on OOHC, transitioning from care, and social sector services and programs, and Director of the Research Centre for Better Outcomes from Fostering and Residential Care (Better Outcomes).
